AIRx®

FRESH HERBAL GEL
URINAL SCREEN

Impregnated With The Fresh Herbal Fragrance
and Our Airicide® Odor Counteractant.

COMPLETE CLEANING & ODOR CONTROL

RX115 urinal screens are a unique combination of a gel screen screen infused with our fresh herbal fragrance and our proprietary odor counteractant, Airicide®. This is the only urinal screen on the market today that offers this combination. Its low VOC's allows it to meet the most stringent of standards making it compliant in all states. Use of this product will allow a minimum of 2000 flushes before it needs to be replaced. Remember, foul odors are bad for business and the RX115 Urinal Screens will help eliminate foul odors so common in bathrooms. Airx Labs can help design a complete bathroom maintenance program to help it smell clean and herbal fresh.

Description

RX115 Urinal Gel Screens will keep your urinals from clogging while freshening the area each time the urinals are flushed. This product is a unique combination of a gel, our fresh herbal scent, and Airicide® Odor Counteractant. Its combination of ingredients makes this product the latest in urinal screen technology.

Uses

RX115 Gel Urinal Screens are ideal replacements for ordinary under-performing urinal screens. They can be be used in any standard urinal to obtain superior results. Ideal for use in any urinal in any facility, they offer the superior results you've come to expect from Airx products.

FRESH HERBAL GEL URINAL SCREEN

Impregnated With The Fresh Herbal Fragrance and Our Airicide® Odor Counteractant.

Benefits

- Gel technology
- Fresh herbal scent
- Airicide infused to eliminate odors
- Over 2000 flushes per screen
- Will fit almost any urinal
- Part of a complete Airx bathroom program (see your Airx distributor)
- Multiple packaging options

Directions

Simply remove the RX115 screen from the box and place in the urinal as you would an ordinary screen. You will notice the benefits of this product from the very first flush.
