**ALL THE BENEFITS
OF GEL, WITHOUT
DRYING OUT
YOUR HANDS...**

**EVEN WITH
REPEATED USE**

**Sanitize your
hands without
irritation**

**RX 200 FOAMING
INSTANT HAND SANITIZER**

It has been long recognized that one of the most critical steps in preventing transmission of disease is the frequent washing of the hands. But washing thoroughly everytime someone touches something that might harbor germs is not always possible or practical, so we compliment the person that came up with the idea of the high alcohol gel that theoretically can be used as many times a day as necessary for instant hand sanitizing. The problem is it requires 62% alcohol to kill germs

... and that much alcohol can dry the skin. When hands are dry and scaly, germs are more difficult "to kill", and when the skin is irritated, those that should sanitize their hands don't want to use the alcohol gel. Now there's a hand sanitizer that doesn't depend on alcohol as the active ingredient. It's RX 200. The active ingredient is Benzethonium Chloride that will not dry out the skin with frequent use, and still kills germs in 15 seconds. You also use half as much with the RX 200 foam dispensers.

Valve is at top of bag.
Guaranteed leak proof.

Multi-lingual labeling in
Spanish, English and
French.

ADA compliant dispenser,
push with one hand or
elbow.

Travel size makes it easy
to carry with you, to use
when you need it.

RX 200 FOAMING INSTANT HAND SANITIZER

DESCRIPTION

RX 200 Foaming Instant Hand Sanitizer is a revolutionary, high technology hand sanitizer that contains no isopropyl alcohol. Because it doesn't contain high levels of alcohol. It will not dry out your hands with repeated use. Packed to carry with you, or use from a handy wall mount dispenser.

BENEFITS

FAST ACTING - Kills disease-causing organisms on hands in 15 seconds.

KINDER TO THE SKIN - Less irritation to the skin than high alcohol gels.

CONTAINS NO ISOPROPYL ALCOHOL - Gets its sanitizing effectiveness from the active ingredient Benzethonium Chloride, not alcohol.

ECONOMICAL - Sanitizes with foam generated by the RX 200 dispenser systems and requires just half as much product for each application.

MULTI-LINGUAL PACKAGING - Each 1000 ml bag in a box of RX 200 is labeled in English, French and Spanish.

ADA (Americans with Disability Act) COMPLIANT DISPENSER - Features an easy to push pad requiring less than 5 pounds of pressure and only one hand or elbow to activate.

GUARANTEED LEAK PROOF - The dispensers and bags of RX 200 have the dispensing valves at the top, eliminating the risk of leaking.

KEYLOCK OPTION - For added security, RX 200 dispensers can be easily converted to key lock mode ... and easily converted back.

SAFE ON CONTACT SURFACES - Gels with their high percentage of alcohol can remove and deface floor finish. Not so with RX 200.

USES

Excellent for control of infectious microbial material on the hands when water is unavailable or inconvenient. Contains emollients and humectants so you can use it all day long reduces cross contamination risk and improves sanitation. Foaming dispenser reduces waste.

GERMICIDIAL EFFICACY DATA

Sanitizing hands with RX 200 has been found (by FDA test methods) to reduce the presence of the following germs on the skin by 99.9% in just 15 seconds.

Bacteria

Enterococcus faecalis Vancomycin resistant (VRE)	ATC51559
Escherichia coli	ATC8739
Listeria monocytogenes	ATC7644
Pseudomonas aeruginosa	ATC9027
Salmonella typhi	ATC14028
Serratia marcescens	ATC13880
Staphylococcus aureus Methicillin resistant (MRSA)	ATC33591

Yeast and Fungi after 15 seconds

Aspergillus niger	ATC16404
Candida albicans	ATC10231

SPECIFICATIONS

ACTIVE INGREDIENT.....	Benzethonium Chloride
SHELF LIFE STABILITY	12 months, 0°-100°F
APPEARANCE.....	Clear liquid
COLOR.....	Dye free
LOTIONIZING.....	Enriched with Aloe & vitamin E
SPECIFIC GRAVITY	1.0
ODOR OF LIQUID.....	Light linen
MOST EFFECTIVE TEMPERATURE RANGE.....	45°-110°F
PACKAGING	1.7 oz. & 1000 ml
DIRECTIONS	Multi-lingual
