## FRAGRANCE-FREE SMOKE & ODOR ELIMINATOR

Effective against smoke, vaping and food odors - Super Strength Formula

RX-420 is an institutional grade odor neutralizing spray that has been intensified for fast action and long lasting results.

Cigarette, vaping, and marijuana smoke can all leave behind odor residue that is very hard to remove.

RX-420 Smoke & Odor Eliminator super concentrate is fragrance-free and uses patented odor control technology. It does not mask the odor but chemically alters the molecules, eliminating them.

Also, it is effective against spicy food odors, and can be used in dining areas without concern of negatively impacting the taste of the food being served.

### Description

We understand how challenging it can be to eliminate smoke odor from your environment, especially when you have to deal with unwanted fragrances that can be equally unpleasant. That's why we have developed the RX-420, which is designed to effectively eliminate smoke odor without leaving any fragrance behind.

### Uses

Counteracts malodors from smoke, smoking, pets, pet accidents, cooking, sickness, sewage, garbage, trash, beer, wine, liquor, paint, solvents, insecticides, etc. Erases foul odors in the air, in carpets, upholstery, draperies, bedding, in patient's rooms, restrooms, lockers, compactors, dumpsters, closets, air conditioners, etc.

### Benefits

NEUTRALIZES FOUL ODORS with a proprietary odor counteractant designed to link with odor molecules in the air and change their size and shape so that the cilia and olfactory nerves will not perceive the odors as unpleasant.

# RX-420 FRAGRANCE-FREE SMOKE & ODOR ELIMINATOR

Effective against smoke, vaping and food odors - Super Strength Formula

**VERSATILE** - RX-420 is a unique odor counteractant that can be used as a space spray to erase odors already in the air. Can be sprayed directly on carpets, clothing, bedding, curtains and other textiles, or sprayed into things such as refuse containers to erase odors.

**COUNTERACTS MALODORS** from fats, oils, cooking, fire, smoke, liquor, beer, chemicals, sewage, paints, solvents, insecticides, etc.

**HIGH INTENSITY** - Many times the concentration and the lasting ability of typical deodorizers and deodorizing sprays. A quick spray is usually all that is necessary where other products are ineffective.

**ECONOMICAL** - Each quart is the equivalent in activity to about one dozen aerosol cans, but that's only part of the story. The high intensity of RX-420 puts more odor counteractant in every cubic inch of the space or the article treated.

**SAFETY** - Safe to use around animals & pets.

## Specifications

ODOR .....	Fragrance free
OLFACTORY DESENSITIZER.....	none
